SUMMARY

Computer Science graduate passionate about data center operations, IT infrastructure, and electrical & mechanical systems. With a background in software development, cloud computing, and system administration, I am eager to transition into data center engineering. Strong problem-solving skills and adaptability allow me to thrive in high-tech environments. Enthusiastic about learning and contributing to data center reliability and operations.

EDUCATION

King Khalid University   **2021 - 2025**   *GPA 4.30*
Bachelor's in Computer Science

EXPERIENCE

COOP TRAINING   ***August 2024 - December 2024***
IT Support Specialist

- *Improved database query performance by 10% through efficient indexing techni22ques.*
- *Assisted in network optimization, reducing downtime during peak hours.*
